IMPRO VISION

12.-16. November 2025

© Damian Marhulets

Musical improvisation is a fundamental element of historical performance practice and, as such, an original source of musical creation. It exists in all styles and musical genres. With these guiding principles, Villa Seligmann invites culture enthusiasts, young musicians, and curious concertgoers to engage in vivid experiences of the emergence of improvisation and to actively shape it in workshops.

As a venue, Villa Seligmann, known as a boutique for musical rarities, is perfectly suited. In addition, two further iterations of the festival are planned for 2026 and 2027, focusing on the human senses of “Taste” and “Hearing,” inspired by the allegories of the same name found in the paintings at Villa Seligmann.
